

PHENO HUNT 001 CATALOGUE

ROSIN WASH PROGRAM · 43 PHENOTYPES · 7 STRAINS

All Time High × WowJackFarm
20-22 SEP 2026 · SUKHUMVIT 33 · BANGKOK

What you are reading. Every phenotype in the WowJackFarm selection program, with its fresh-frozen wash result. Total % is rosin-grade hash (90u + 45u) as a share of fresh weight. 90u % is the premium fraction alone. 90u share tells you how much of the pull was the premium fraction.

What it doesn't tell you. Which blind code is which. The 29 samples in the judges' boxes come from this list, but codes are held in a sealed key until the reveal on 22 September. Taste first, read later.

Yield is not the trophy. Keepers are chosen on quality, repeatability and yield together. Number 1 by yield is not in the final.

TOP 10 · TOTAL YIELD					
1	Pink Honey 37	6.00%	6	Pink Honey 24	4.37%
2	Yellow Mellow 81	5.12%	7	Strawberry Gummies 23	4.30%

#	TOTAL %	90U %	90U SHARE	PROFILE / NOTES
12	3.91	2.54	64.9	KK/RS11

Reading the numbers. Two-test phenotypes keep both values, nothing is averaged. Melonbow fresh weight was not measured, so yields are as recorded. "—" means not recorded. RETEST means the sample is being re-washed and carries no number yet.
